PRODUCT TYPE

Indoor & Outdoor Furniture

THE PROJECT

Over recent years, Glasgow Wood Recycling have become increasingly aware of an availability of used whisky casks in circulation, estimated to be approximately 250,000 per annum. No longer useful in the distillation process, the opportunity to think differently about how to maximise the inherent value of these end-of-life oak casks was something we couldn't pass on.

RE-CASK is Glasgow Wood Recycling's research and development strand which investigates new products and opportunities for these oak barrels. Having developed innovative grading and processing techniques for the staves we've been able to unlock huge amounts of potential.

As we work towards a more circular and low carbon future, RE-CASK presents an opportunity for us to move closer towards that goal, whilst also providing valuable training opportunities to help combat social exclusion and unemployment within the Glasgow area. We are eager to continue uncovering new applications and practical solutions for these barrels in an ever-changing World.

CATALOGUE 04

Bench

Bench with back

Double bench

Standard Table

Wheelchair Accessible Table

Stool/Side Table

BESPOKE: Sustrans Bench

PLEASE NOTE:

These are all examples. Final dimensions and finishes may vary due to the nature of the reclaimed barrels.

RE-CASK fencing is seen throughout this catalogue. Please see Catalogue 01 for more information on our Screens & Fencing.

PRODUCT	Bench
DIMENSIONS (MM)	L1000 x W400 x H450
DESCRIPTION	Carefully engineered to compliment the dimensions of the staves, the RE-CASK bench is composed of a stainless-steel frame and oak stave seating panel, each possessing a completely unique character. The bench is supplied in two parts and can be secured to the ground. These benches are incredibly hard wearing and durable, making them well suited to outdoor spaces.

PRODUCT	Bench with Back
DIMENSIONS (MM)	L1000 x W500 x H700
DESCRIPTION	Complimenting the unique character and dimensions of the staves, the RE-CASK bench with back is composed of a 3-piece, welded stainless steel frame, designed to offer extra support and comfort.

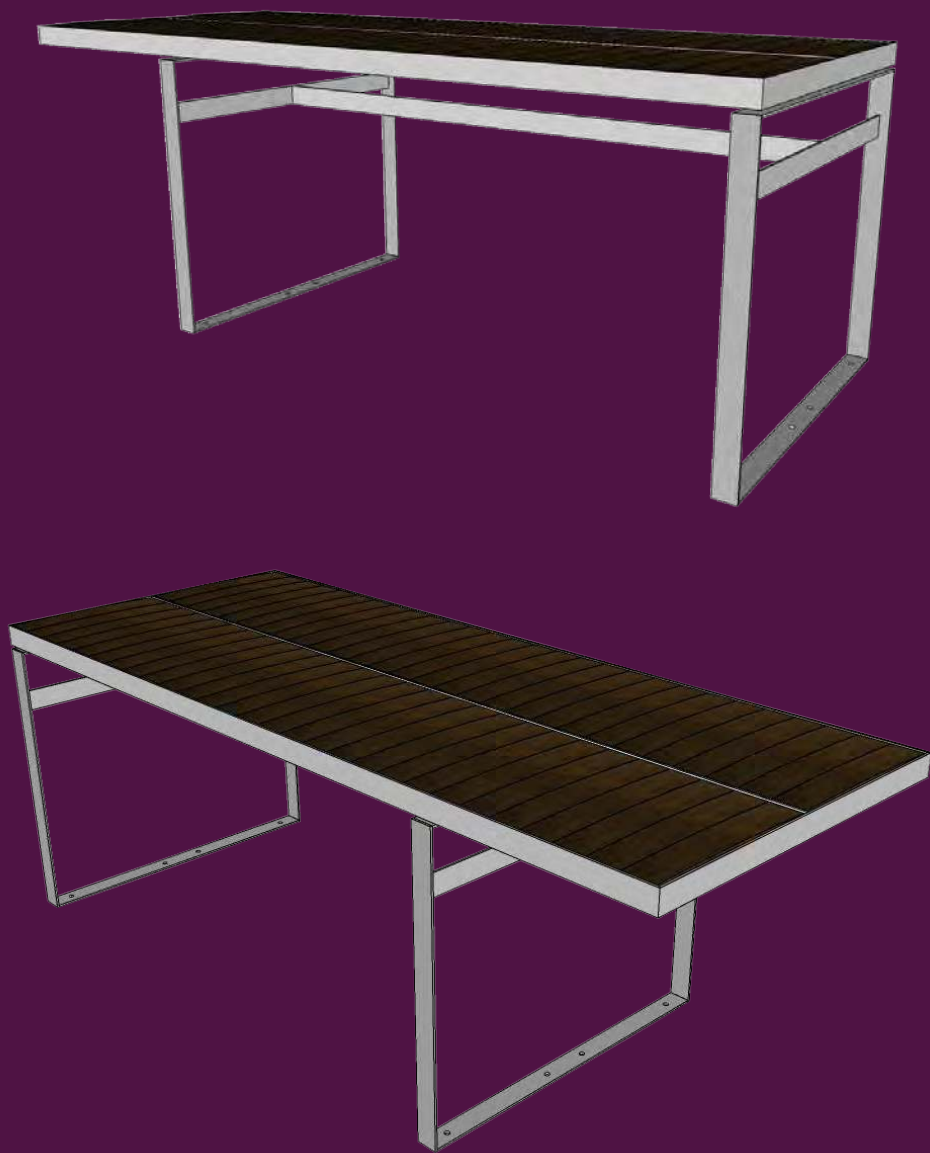

PRODUCT	Double Bench
DIMENSIONS (MM)	L1000 x W800 x H450
DESCRIPTION	Ideal for outdoor leisure and public spaces, the RE-CASK double bench is composed of a 2-piece welded stainless steel frame which showcases two oak stave seating panels. The double width of gives the bench multiple uses dictated by the user.

PRODUCT	Standard Table
DIMENSIONS (MM)	L1500 x W750 x H800
DESCRIPTION	Constructed with timeless industrial style, the RE-CASK table highlights each of the unique stave panels using a classic stainless steel frame. Made from reclaimed oak and high quality steel, the table provides excellent durability against general damage, corrosion and weathering – making it ideal for heavy use, time and time again. Paired with the RE-CASK Bench, our RE-CASK tables are guaranteed to create a striking focal point to any indoor or outdoor space.

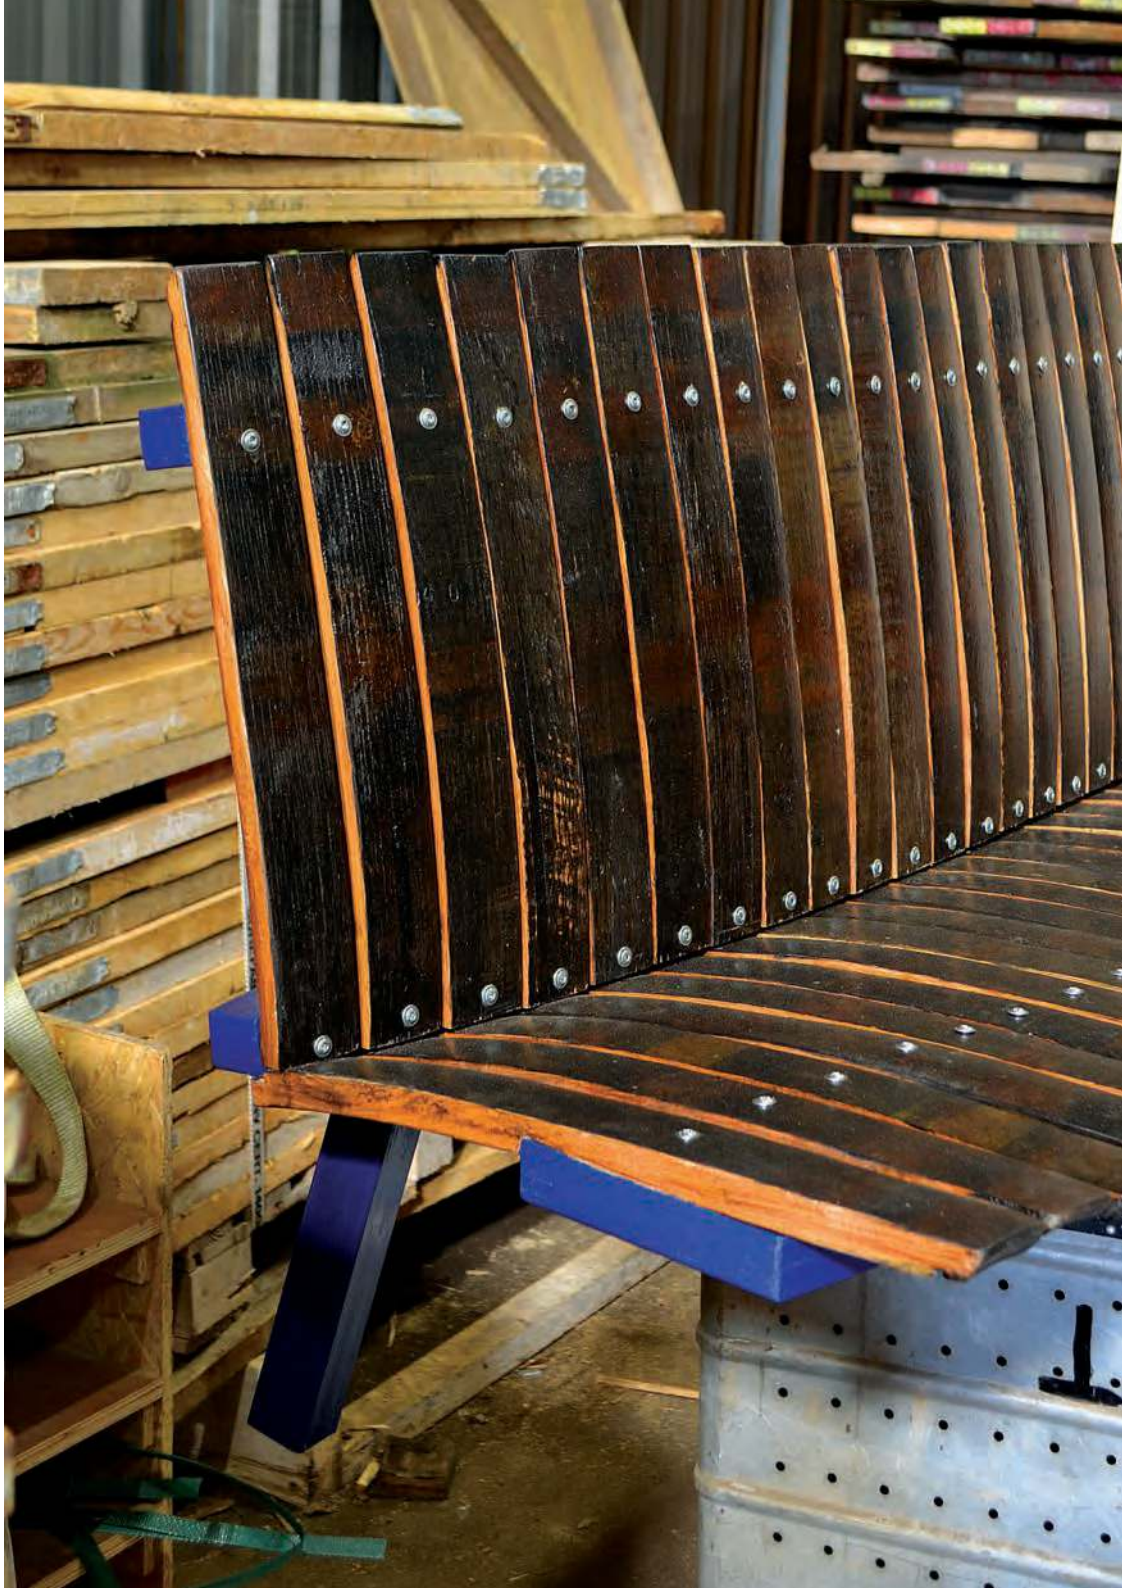

PRODUCT	Wheelchair Accessible Table
DIMENSIONS (MM)	L2000 x W750 x H800
DESCRIPTION	With an unobstructed 500mm extension, this table is designed to cater to those in wheelchairs. Featuring two oak stave panels and a highly durable 2-piece stainless steel frame with legs matching the other pieces in the range, this is an inclusive, unique and hard-wearing outdoor table option.

PRODUCT	Stool / Side Table
DIMENSIONS (MM)	L500 x W400 x H450
DESCRIPTION	Like the benches in the RE-CASK range, just half the space. The RE-CASK stool/side table mirrors the same timeless industrial style reflected throughout the range, featuring a crossbar for added stability which sits out of obstruction to avoid discomfort when seated.

PRODUCT	Sustrans Bench
DIMENSIONS (MM)	L2785 x W850 x H550
PROJECT	Pocket Places: Kilbarchan Primary School
DESCRIPTION	Commissioned by Sustrans Scotland, Glasgow Wood Recycling were asked to design a bench which would help create a more attractive walk, scoot or cycle to school. Utilising the subtle curve of the oak staves and highlighting the warm honey and copper tones with a contrasting electric blue frame, the Sustrans bench truly is a statement piece. Sunk and secured into the ground, the bench sits at a comfortable height to take a special pit stop on the daily commute.

FINISHES

All of the RE-CASK outdoor furniture can be fully customised with a small range of colours available for the steel and a multitude of finishes for the oak. Please inquire to find out more.
